**Chromatism. Bring softness and personality to your next interior project with a rug in any size or shape. It is an easy and fast way to update your space. Simply choose your style among tufted, flat woven or shaggy constructions and find the perfect colour in one of the six colour themes: beige, grey, black, green, blue or multi. Finish your rug by choosing from 30 overlock colours or 20 border options. Alternatively, maybe you just want your rug cut or blind bound.**

## The finishing options

Complete the look of your rug with the choice of finishing. The edging can be a distinct feature of your carpet design or you can have a neutral finishing or no visible border at all.

The overlock yarns come in 30 different shades for an eye-catching contrast or a more discreet tone on tone look. 20 different borders come in 1, 2, 3 or 5 cm visible widths.

Not all finishings are suitable for all carpet types. Overlock stitching and borders are the most widely available options, however the border finish requires a square shape. The long pile constructions are especially suitable for blind binding and Soft Dreams Lux is only cut due to its luxurious high pile surface.

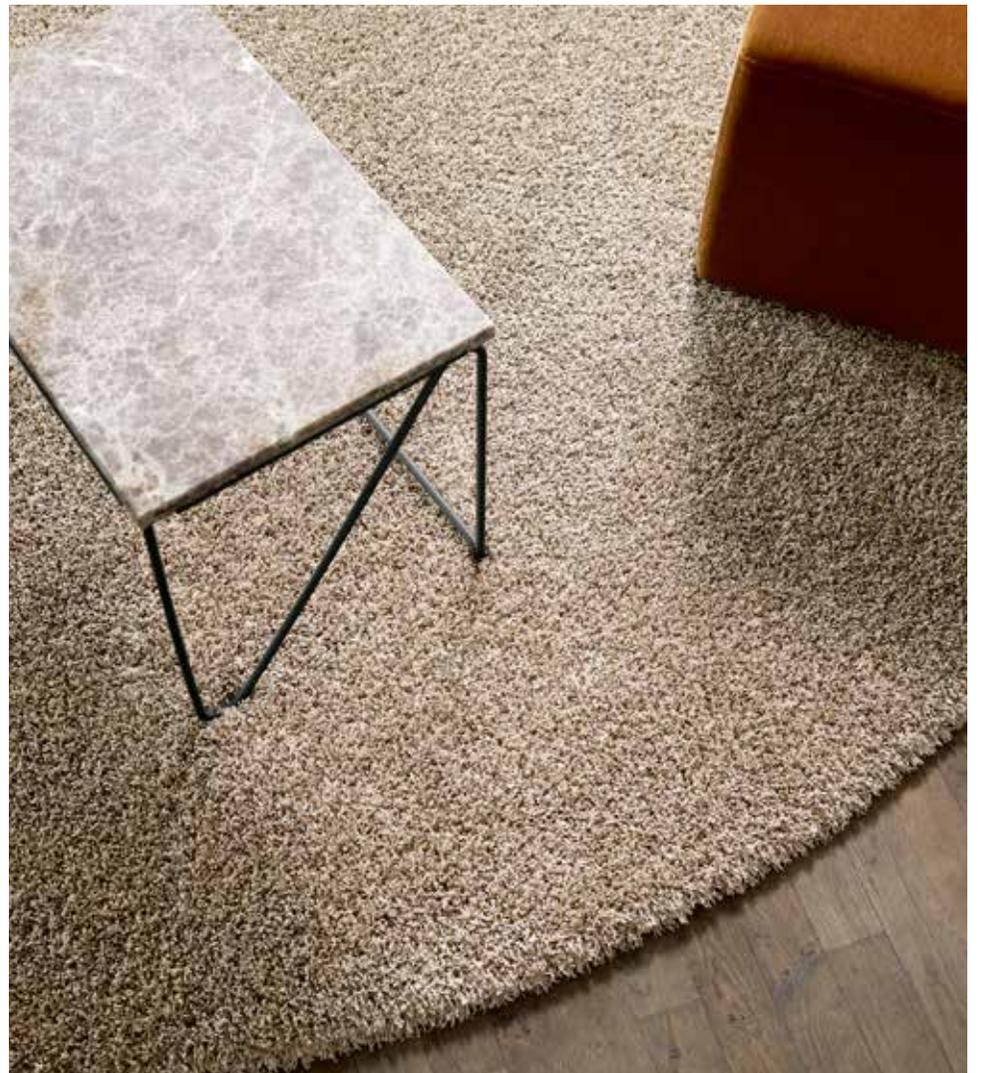

Our consultants will be happy to assist you when choosing among the many finishing options.

**Explore the six colour themes of the Chromatism range that have been carefully selected for their perfect match with contemporary interiors; beige, grey, black, green, blue and multi. Experience the textures of different pile heights, yarns with natural variations and silk highlights that create movement and depth. Go for subtle shades that blend silently with the interior or go for bold colours to create a striking impression.**

**Beige.** Enjoy soft, neutral shades with a delicate subtlety and create a warm and calming atmosphere. Beige is anything but boring and can bring understated luxury and elegance to any interior with its cream, sand and tan-coloured tones.

**Grey. Black.** Dark tones add depth and character to your space. Underline the contemporary unfinished look with a textured choice of both rug and border. Or go with a high pile rug to soften the style.

**Green.** The colour brings freshness and softness to the cool stone and glass surfaces of today's interior. The natural colour is understated, yet a vibrant design feature that brightens up your space.

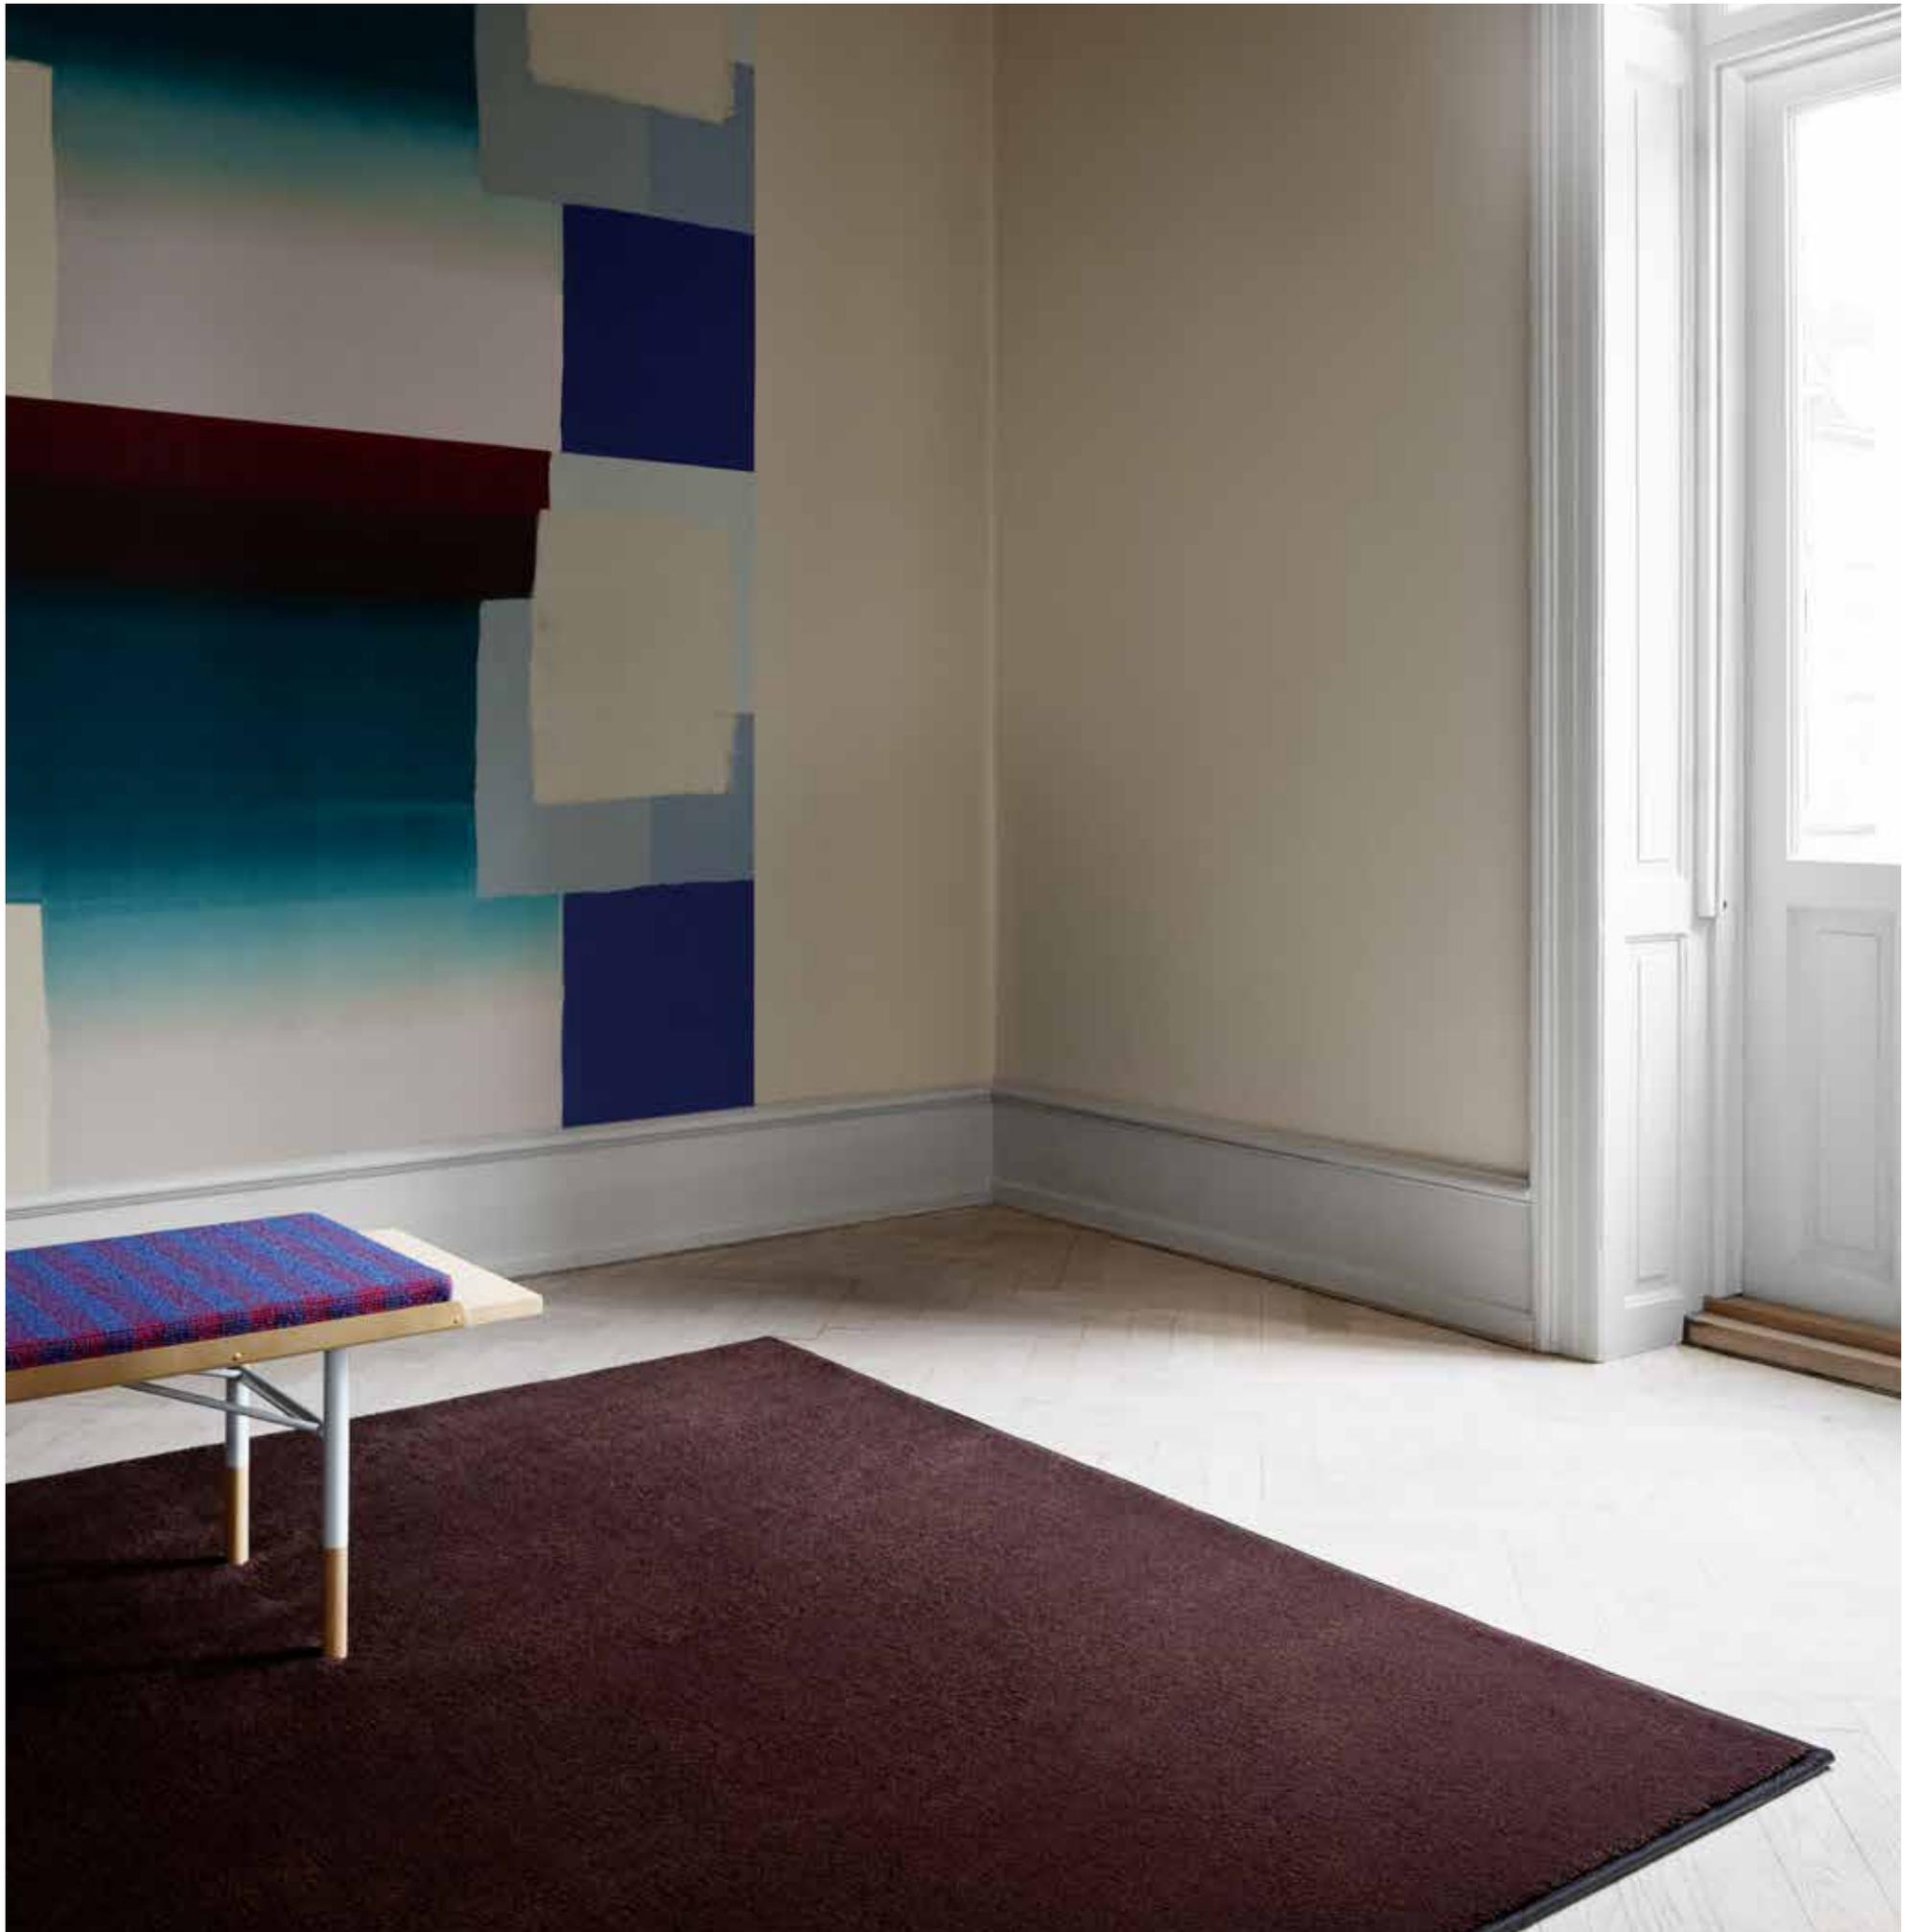

With the any shape and any size concept, you can customise your rug to complement the room. You can make your selection from any of the colour themes and qualities. Cut off corners, go big, go square or go for round and oval shapes.

**Blue. Multi.** Energise your timeless neutrals with blue hues or a splash of colour. It can be a prominent piece of art that catches your eye or a delicate tone that brings life to the room. One of the easiest ways to achieve contemporary colour blocking is to add a single-colour rug to your interior. Be bold and choose a powerful colour that gives your space a playful and personal touch.
