3. DECLARATION OF CONTENTS

Chemical content

Enter chemical content for the whole article. The concentration is calculated at component level according to the principle of "once an article always an article". Is there classification of the article? Is there a safety data sheet for the article? Not applicable Not applicable For complex products, the concentration of included substances has Enter which version of the candidate list has been used (Year, month, day) been calculated at: component level The article is covered by the RoHS Directive: Enter the weight of the article: No 1.95 kg/m2 Enter how large a proportion of the material content has been declared [%]: 99,9 If the article contains nanomaterials deliberately added to obtain a particular function, enter these here: Enter the proportion of volatile organic substances [g/litre], applies only Is the article registered in Basta? to sealants, paints, varnishes and adhesives: Yes

Comment			

Total recycled material in the article

Material

Comment

Is recycled material included in the article?

Synthetic fibers Proportion after the consumer stage Proportion before the consumer stat Weight/percent by weight 100 0 17,7 %

Renewable material Enter proportion of renewable material in the article (short cycle, less Enter proportion of renewable material in the article (long cycle, more than than 10 years): 10 years): Included biobased raw material is tested according to ASTM test method D6866: Is there supporting documentation for the raw materials for third-party certified system for control of origin, raw material extraction, manufacturing or recycling processes or similar (for example BES 6001:2008, EMS certificate, USGBC Program)? If yes, enter system(s): Wood raw materials Wood raw materials are included Included wood raw material is certified How large a proportion is certified [%]? What certification system has been used (for example FSC, CSA, SFI with CoC, PEFC)? Reference number: Enter logging country for the wood raw material and that following criteria have been met. Country of logging: Does not contain type of wood or origin in CITES appendix of endangered species The timber has been logged legally and there is certification for this 5. ENVIRONMENTAL IMPACT Environmental impact during life cycle of the article, production phase module A1-A3 under EN Has environmental product declaration been drawn up according to EN 15804 or ISO 14025 for the article? These product-specific rules, known as PCR, have been applied: Registration number / ID number for EPD: Climate impact (GWP100) [kg CO2-eq]: Ozone depletion (ODP) [kg CFC 11-eq]: Acidification (AP) [kg SO2-eq]: Ground-level ozone (POCP) [kg ethene-eq]: Eutrophication (EP) [kg (PO4)-3-eq]: Renewable energy [MJ]: Non-renewable energy [MJ]: If calculation has been made in Green Guide, enter which rating: If there is environmental product declaration or other life cycle assessment, describe how the environmental impact of the article is taken into account from a life cycle perspective:

6. DISTRIBUTION

Distribution of finished article

Does the supplier apply any system with multiple-use packaging for the Does the supplier use Retursystem Byggpall? article? No No Does the supplier take back packaging for the article? Is the supplier affiliated to a system for product responsibility for packaging? No No If yes, which packaging and which system? Other information: 7. CONSTRUCTION PHASE **Construction phase** Does the article make special requirements in storage? Yes Specify Keep dry. Does the article make special requirements for surrounding building products? Yes Specify Surfaces must be smooth and dry

See Installation Guide for the product at www.ege.dk.

Other information:

8. USE PHASE

Use phase

9.

Does the article make requirements for input materials for operation and maintenance?	
No	
Specify:	
Does the article require supply of energy during operation?	
No	
Specify:	
Estimated technical service life for the article:	
25-30 years	
Comment:	
Is there energy labelling under the Energy Labelling Directive (2010/30/EU) for the article?	If yes, enter labelling (G to A, A+, A++, A+++):
No	
Other information:	
DEMOLITION	
Demolition	
Is the article prepared for disassembly (dismantling)?	
Yes	
Specify:	
Thermal Recycling	
Does the article require special measures for protection of health and environment in demolition/disassembly?	
No	
Specify:	
Other information:	

10. WASTE MANAGEMENT

Delivered article

Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it becomes waste?
No
Is reuse possible for the whole or parts of the article when it becomes waste?
No
Specify:
Is material recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
The material can be recovered for new backing.
Is energy recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Thermal Recycling
Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?
Yes
Specify:
Restrictions for energy recovery (Thermal Recycling) in Denmark. Supplier recommend waste for energy recovery world wide.
Waste code for the delivered article when it becomes waste
04 - Avfall från läder-, päls- och textilindustri
When the supplied article becomes waste, is it classified as hazardous waste?
No
Mounted article
Is the mounted article classified as hazardous waste?
No
Other information

Other information

11. INDOOR ENVIRONMENT

Indoor environment The article is not intended for indoor use The article does not produce any emissions Emissions from the article not measured Does the article have a critical moisture state?

Does the article have a chitical moisture state:

Yes

If yes, state what:

May 75 % moisture content in indoor air and may 90 % in floo

Max. 75 % moisture content in indoor air and max. 90 % in floor			
Noise	Electrical field	Magnetic fields	
Can the article give rise to own noise?	Can the article give rise to electrical fields?	Can the article give rise to magnetic fields?	
No	No	No	
Value:	Value:	Value:	
Unit:	Unit:	Unit:	
Measuring method:	Measuring method:	Measuring method:	

Paints and varnishes

Emissions

The article produces the following emissions in intended use:

Type of emission:		
TVOC (EN16516)		
	Measuring point 1:	
	Measuring method/standard:	
	Indoor Air Comfort Gold	
	Result:	Measuring interval:
	<0.005 mg/m3	28 days
	Measuring point 2: Measuring method/standard:	
	Result:	Measuring interval:

Other information

The product is catagorise as a member of group 9 (internal group of homogeneus products). The group 9 has a Indoor Comfort Gold certificate (IACG). IACG evaluate emissions against several emission standards demands.
