

TEST REPORT

DATE: 06-19-2015 TEST NUMBER: 0219966

TO SEE CHARLES OF A PROPERTY OF STREET AS A SECURIOR OF A PROPERTY OF A		TEST NOWIBER. 0217700
CUENT	Egetaepper a/s	

TEST METHOD CONDUCTED ASTM E662 Smoke Density (Non-Flaming) Standard Test Method Specific Optical Density of Smoke Generated by Solid Materials a referenced as NFPA 258

DESCRIPTION OF TEST SAMPLE		
ege tuft 440 WT		
Loop Pile		
Woven Synthetic		

GENERAL PRINCIPLE

This procedure is designed to measure the specific optical density of smoke generated by the test specimen within a closed chamber. Each specimen is exposed to an electrically heated radiant-energy source positioned to provide a constant irradiance level of 2.5 watts/square cm on the specimen surface. Measurements are recorded through a photometric system employing a vertical beam of light and a photo detector positioned to detect the attenuation of light transmittance caused by smoke accumulation within the chamber. The light transmittance measurements are used to calculate specific optical density, a quantitative value which can be factored to estimate the smoke potential of materials. Two burning conditions can be simulated by the test apparatus. The radiant heating in the absence of ignition is referred to as the Non-Flaming Mode. A flaming combustion in the presence of supporting radiation constitutes the Flaming Mode.

	CONDI	TIONS	
PREDRYING OF TEST SAMPLE CONDITIONING OF TEST SAMPLE TESTING CONDITION	24 Hours at 140° F 24 Hours at 70° F an As Received	d 50% Relative Humidity	
FURNACE VOLTAGE CHAMBER TEMPERATURE TEST MODE	118 V 95° F Non-Flaming	IRRADIANCE CHAMBER PRESSURE	2.5 watts/sq cm 3" H ₂ O

AVERAGE MAXIMUM DENSITY CORRECTED (Dmc) NON-FLAMING		142	
AVERAGE SPECIFIC OPTICAL DENSITY AT 4.0 MINUTES			54
	Specimen 1	Specimen 2	Specimen 3
Maximum Density (Dm)	143.0	136.0	149.0
Time to Dm (minutes)	17.5	17.0	17.5
Clear Beam (Dc)	1.0	0.0	2.0
Corr. Max Density (Dmc)	142.0	136.0	147.0
Density at 1.5 minutes	2.0	2.0	3.0
Density at 4.0 minutes	53.0	44.0	64.0
Time to 90% Dm (minutes)	12.5	12.5	13.0
Specimen Weight (grams)	11.0	11.0	11.0

^{*} This sample PASSES the requirements of 450 or less.
